

INTEROFFICE CORRESPONDENCE

DATE: September 20, 1994

TO: S. K. Stovall, Plant Services, Bldg. 124, X4370

FROM: R. A. Shoultz, Field Operations, Bldg. 080, X8879

SUBJECT: WINTER FREEZE PROTECTION - RAS-011-94

Ref: S. K. Stovall ltr, SKS-262-94, to Distribution, Same Subject, August 30, 1994

DOE Order: 4700.1

Action: None

All Environmental Operations facilities managers were contacted on September 14, 1994. They confirmed that one of the areas has an impaired or out-of-service system which would be effected by the up-coming winter months.

The Field Treatability Unit heat trace at Operable Unit two is currently being worked and repairs are due to be completed the first week in October 1994.
